PROFESSIONAL SUMMARY

Motivated Full Stack Developer pursuing B.Tech CSE (CGPA 8.2) with hands-on experience building scalable web applications. Proficient in MERN stack, REST APIs, and AI integration. Completed 1 internship, delivered 3 production-grade projects with measurable impact. Strong problem-solving abilities and team collaboration experience. Seeking Software Developer / Full Stack Developer roles.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, HTML5, CSS3
Frontend: React.js, React Native, Tailwind CSS, Framer Motion, Responsive Design
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL, Firebase Realtime Database
Tools & Practices: Git, GitHub, Agile Development, AI Integration, CI/CD

WORK EXPERIENCE

Web Development Intern – Technook Jun 2024 – Aug 2024

- Developed responsive official website for rhynoEV using React.js and Tailwind CSS with optimal UI/UX design
- Collaborated with team to integrate admin module with website structure, improving functionality and user workflow
- Implemented cross-browser compatibility and mobile optimization, enhancing accessibility across all devices
- Gained hands-on experience with production-level applications and real-world development workflows

PROJECTS

RhynoEV – E-Mobility Booking Platform

React.js, Node.js, Express.js, Tailwind CSS, Payment Gateway, AI Chatbot

- Built production-ready e-mobility platform with responsive design ensuring seamless user experience
- Integrated secure payment gateway enabling seamless online booking and transaction management
- Implemented AI-powered chatbot for real-time customer support, improving engagement and reducing support overhead
- Designed interactive UI with smooth animations and intuitive navigation using Framer Motion
- Created REST API endpoints for vehicle data management and transaction processing

KisanMitraAi – AI-Powered Farmer Assistance Platform (Web)

React.js, Node.js, MongoDB, Real-time Notifications, Data Visualization

- Architected farmer assistance platform with real-time agricultural guidance and notifications
- Built responsive frontend with interactive dashboards for crop tracking and market alerts
- Focused on user-centric design for non-technical farmers, improving adoption and usability

SmartBin – AI-Powered Waste Management App

Flutter, Firebase, Machine Learning, Real-time Tracking, GPS Integration

- Developed production-ready cross-platform mobile app using Flutter with native performance
- Integrated Firebase backend, real-time database, GPS tracking, and route optimization algorithms
- Implemented ML-based waste classification and automated bin level monitoring for smart cities

RESEARCH PUBLICATION

Sensor-Based Digital Signal System for Tunnel Crossings

Shivanshu Kashyap, Mohd Kaif, Vikash Kumar, Ankush Joshi | TechRxiv, May 2025

DOI: [techrxiv.174837501.18281934](https://doi.org/10.17483/7501.18281934)

EDUCATION

Bachelor of Technology in Computer Science (B.Tech CSE)

Jul 2023 – Jun 2027

COER University, Roorkee, Uttarakhand | CGPA: 8.2/10

CERTIFICATIONS & ACHIEVEMENTS

- Hackathon 2025 Participant – COER University (Oct 2025)
- Internal Hackathon 2025 Participant – COER University (Nov 2024)
- Hackathon 4.0 Participant – COER University (Oct 2024)
- Web Development Certificate – IIT Roorkee (Aug 2024)
- Java (Basic) Certified – LinkedIn Learning (Jul 2024)
